

Drug-free Workplace | On-site Testing | Corporate Wellness | Criminal Background Checks
DNA Paternity Testing | Direct-to-consumer Lab Tests

About InOut Labs: In June 2012, Tim Thoelecke founded [InOut Labs](#) to provide drug and alcohol testing as well as other wellness services to companies of all sizes. InOut Labs was created because healthy companies pay less for workers comp and health insurance. Healthy employees are more productive, have few sick days and file fewer insurance claims.

InOut Labs helps employers maintain a safe workplace for employees and customers. Traditionally, workplace safety practice involves random drug testing and post-accident drug and alcohol testing (i.e. - when it's too late). Harnessing the power of innovative diagnostic devices such as TruTouch, a self-administered, on-site tool that tests blood alcohol level, or many of the other services offered by InOut Labs, including background checks and drug testing, InOut Labs is transforming safety and productivity in the workplace.

Praise for InOut Labs

"InOut Labs helped us implement a drug-free workplace, and it couldn't have been easier. They accommodated our schedule and gave us peace of mind." —Jim DeMeo, Owner, Aqua Plumbing, Heating and Cooling, Niles, IL

"We never had a drug-testing program before, so it was important for us to work with a company like InOut Labs that has the experience and knowledge needed to set something up. Their mobile service made it especially easy to get everyone tested in one day. Plus, InOut Labs created a random testing program that is customized to our seasonal employment schedule. Tim and his team are always friendly and make sure we understand what's going on." —Patty Petersen, President Viking Concrete Raising & Repair, Park City, IL

"InOut Labs has been wonderful to work with. They are not only helpful in many ways, but they have accommodated any needs that our company has come across."—Erika Lundin, Lin-Mar Towing and Recovery, Morton Grove, IL

"I run a car dealership so I think about the safety of our customers and our staff all the time. We've been drug testing our employees since the early 90s, but in recent years, we've worked with InOut Labs. The company is respectful, timely and helps us get the information we need to protect the safety, professionalism and well-being of our clients and staff."— James Jennings, President and CEO of Jennings Chevrolet & Volkswagen in Glenview, IL
