

REDUCE TURNOVER AND LIABILITY

AN AUTO DEALER'S REPUTATION IS CRITICAL

Drug testing has been proven to Reduce Turnover, Reduce Shrinkage, and Reduce Accidents.

- ◆ Do your customers want to climb in a vehicle with an employee who uses drugs?
- ◆ Do your customers really want to buy a car that has already been painted because of a parking lot fender bender? Do YOU want to sell that car?
- ◆ Are you tired of inventory disappearing from your warehouse?

Auto dealerships have unique risks

- 1 Accidents Happen**
Damage to a customer's car is not fun to explain. Nor is repairing a new car with a ding in it.
- 2 Reputations Are Fragile**
How employees appear and behave is a direct reflection on the organization.
- 3 Someone Could Die**
Mechanics are responsible for customers' safety - AFTER they leave the premises. A mistake on a brake job could kill someone.
